---

## Experience

### Microsoft - 343 Industries / IT Support Analyst

NOV 2017 - FEB 2018, Redmond, WA

First Contract position in the IT field, supported the expansion, upkeep, and upgrading of the datacenter, assisted in acquisition of new hardware, as well as supporting the immediate needs of the DevOps team.

### Pole To Win International / QA Tester

MAR 2017 - OCT 2017, Lynnwood, WA

Performed ad-hoc testing on multiple now released titles, notably finding a critical priority bug that saved the publisher from losing an innumerable amount of revenue.

### Amazon / Prime Now Warehouse Associate

NOV 2016 - JAN 2018, Kirkland, WA

Worked during the rush hours of the day ensuring accurate and reliably timed fulfillment of hourly shipments, completing windows on time that would often end up with over 100 individual orders.

### Uncle Bob's Sports Bar & Grill / Dishwasher

AUG 2015 - OCT 2016, Temecula, CA

The job that propelled me to Washington State. My boss saw my potential while I still worked there, and kick started my way to the successes I have to show above. [Letter of Recommendation](#)

---

---

## Education

### Coding Dojo Seattle / Full Stack Web Development

MAR 2018 - JUN 2018, Bellevue, WA

14 week bootcamp in which I spent over 60 hours a week on average crash coursing frontend to backend web development. Developed good sense of OOP and MVC, and passed my 2 of my 3 Language exams in the 95th percentile.
